

BIVI Feline Vaccines

Confidence. Choice. Reliability.

Proven VACCINES to fit your
protocols for EVERY CAT

Inactivated (Killed) Vaccines – Fel-O-Vax® + CaliciVax™

- Broader calicivirus protection from the dual strain CaliciVax™ combinations
- Number one FeLV vaccine with proven 100% efficacy in multiple studies
- Flexible antigen combinations to meet individual cat needs with fewer injections
- Proven safety and low adverse events in largest study* ever conducted with almost half a million cats

Modified Live Vaccines – Fel-O-Guard® Plus

- For use when modified live core antigens are preferred
- Flexible combinations for cats at any life stage
- Efficacy you can count on from traditional serovars of most common diseases

Combinations used most frequently by BIVI customers

CHECK-OFF & ECHO NOTES

Identify if BIVI rep has visited the practice recently

(Dr, has your Boehringer rep been in to see you in the last 10 days?)

If Yes – review understanding and benefits

If No - Discuss/Review topics (DSR=Primary contact)

Confidence

“Doctor, I believe the feline vaccine line from Boehringer-Ingelheim can provide you with the safety, efficacy and flexibility you desire for your feline patients.”

Invitation (neutral)

“Let me review how these antigens and vaccine combinations meet your protocol requirements...”

It's the customer's decision

“...then you can determine where BIVI feline vaccines are a fit for your practice and feline patients.”
