

*LED Medical Lighting to Fit
Any Veterinary Environment*

Welch Allyn Green Series™ Medical Exam Lights

Whiter, Brighter and Greener

Meeting the Needs of Veterinarians

- Multifunctional; from basic exams to common procedures*
- Cost-effective
- 5,500° K LEDs
- Touchless controls
- Compact, ergonomic design

Advantages Beyond Being Bright

- Save space and increase efficiency
- Eliminate bulb replacement and use less energy
- More accurate color for clearer tissue identification than with halogen
- Easy to use, clean and maintain

50,000 Hours of Confidence

- Minimal to no degradation over life of light
- Limit the need to manage bulb inventory
- Eliminate frustration and inconvenience of blown bulbs
- Reduce "out of service" equipment issues

**Sound
Byte**

*The American Veterinary Medical Association (AVMA) does not define requirements for lighting for veterinary surgical procedures.

Welch Allyn GS 900 Procedure Light

- Touchless on/off controls
- Touchless intensity control
- Six LEDs
- Mobile, wall or ceiling mount options
- Handle sheath(s) may be used during procedures

What are you currently using for your exam and procedure lighting? What would you change to improve their performance?

Confidence

Welch Allyn Green Series™ Exam and Procedure Lights have been designed for the rigors of a busy clinic at an affordable price.

With the cost savings over the life of the light, you can expect a high performing light for many years of excellent service.

Invitation (neutral)

Let's discuss the benefits associated with Welch Allyn Green Series lighting technology and see how we can save you time and money.

Acknowledgement

Let's review your exam and procedure areas to make a decision as to which Green Series lights would work best for each.
