J0153W

**10%
off during
July!**

Offer includes all J0153 series catheters.

Veterinary Pharmacy Safety Items

The increased use of oncology drugs brings a need for better understanding of these often toxic products. It is critical to use the proper equipment in mixing and administering these antineoplastic agents. JorVet is providing some of the latest safety oriented products that should be considered a standard when working with these powerful, but dangerous pharmaceuticals.

New government regulations under USP800 code will be enforced starting December of 2019. The basic 3 components of these regulation will require:

1. All chemotherapy drugs must use 'closed system transfer devices' or CSTD to reconstitute and administer oncology drugs.
2. Health care workers administering chemotherapy drugs to patients must wear appropriate Personal Protection Equipment (PPE)
3. Biological safety cabinets to remove vapors must be used.

More information about US regulations can be found at www.usp.org.

Reconstitution and Fluid Dispensing

MINI-SPIKE® Dispensing Pins. DEHP-free. Latex-free.

- J0591** **MINI-SPIKE® IV Additive Dispensing Pin** for preparing and dispensing diluent for multi-dose rubber-stoppered vials. Proximal luer lock connector. 5pk.
- J0591A** **Vented with One-Way Valve** for aspiration of medication from inverted multi-dose vials. Luer lock connector. 5pk.
- J0591B** **Vented with Security Clip** For preparing and dispensing diluent from standard 20 m rubber-stoppered vials. Proximal luer lock connector. 5pk.
- J0591C** **Non-vented** for withdrawal or injection of medication from multi-dose rubber-stoppered vials. Luer lock connector. 5pk.
- J0591D** **MINI-SPIKE® Dispensing Pin** utilizes a bacterial retentive air-venting filter. Luer slip connector. 5pk.
- J1436** **Transfix™ Transfer Spike.** Double spike for rapid transfer of medication or diluent between rubber-stoppered containers. 5pk.

ULTRASITE® Valve (Two-way) for aspiration or injection. DEHP-free. Latex-free.

- J0463XA** For attachment to standard 17mm or 20mm rubber-stoppered vials; non-vented.
- J0463X** Security clip for attachment to standard 20mm rubber-stoppered vials; vented.
- J0463XB** For rubber-stoppered vials; vented.

Chemo Dispensing Pins are designed to eliminate aerosolization of chemotherapeutic medications during the reconstitution and dispensing process. Assists in USP<797> compliance. DEHP-free. Latex-free.

- J0463T** Chemo Dispensing Pin™ with distal MINI-SPIKE® and built-in 0.2 micron hydrophobic air-venting filter. Proximal luer lock connector.
- J0463V** Chemo Dispensing Pin™ with security clip for attachment to standard 20mm rubber-stoppered vials. Built in 0.2 micron hydrophobic air-venting filter. Proximal luer lock connector.
- J0463Z** Chemo Dispensing Pin™ with distal MINI-SPIKE® Plus, 0.2 micron fluid filter and integrated snap-lock cap to protect luer lock connector.

New Products

OnGuard™ Contained Medication System with Tevadaptor™ Components

A next-generation system that helps protect you from exposure to hazardous drugs and is proven to meet the NIOSH definition of a closed system drug transfer device in actual drug testing with antineoplastic agents.

Protection you can feel, hear and trust.

- Provides tactile and audible feedback to help confirm connection security.
- NIOSH-compliant passive safety technology promotes needlestick prevention.
- Provides containment and sterility with Toxi-Guard™ Activated Charcoal Drug Binding Matrix and integral 0.2 micron air-sterilizing hydrophobic membrane.
- Components are Latex-free and DEHP-free.

Easy, intuitive design won't slow you down.

- Easy to learn with fewer components and steps.
- Integrates easily into your current practice.
- Supports compliance with USP <797>, NIOSH and ASHP recommendations for handling hazardous drugs.
- Safely contains drug in liquid, gaseous, and particulate form during admixture, transport, administration and disposal.

- J1497** **Tevadaptor** Syringe Adaptor for use with luer lock syringes. Enables closed fluid transfers using a syringe and various Tevadaptor components through dedicated device connections. DEHP-free. Latex-free.
- J1497A** **Tevadaptor** Luer Lock Adaptor converts a standard luer activated valve for access with the Tevadaptor Syringe Adaptor. DEHP-free. Latex-free.
- J1497B** **Tevadaptor** Vial Adaptor for closed reconstitution and withdrawal of medications with most 20 mm and 13mm vials (with vial converter ring provided). DEHP-free. Latex-free.
- J1497C** **Tevadaptor** Spike Port Adaptor adapts a dedicated IV pump tubing set or gravity tubing set. Proximal non-vented bag spike, on/off clamp and distal spike adaptor access. DEHP-free. Latex-free. Length: 8 in. (20 cm)
- J1497D** **Tevadaptor** Connecting Set - secondary tubing set for closed drug preparation and administration of IV medications. Proximal non-vented bag spike, on/off clamp, and distal male luer lock connector. DEHP-free. Latex-free. Length: 19 in. (49 cm)

Personal Protection Equipment (PPE)

Another aspect of the new USP 800 regulations include healthcare workers needing to wear PPE including a non-permeable gown, head, hair and shoe covers plus two pair of chemotherapy gloves.

JorVet offers the following PPE to help meet those new requirements.

Nitrile Exam Gloves

Item #	Size	Packaging
J1441a	X-Small	200 each/box - 10 boxes/case
J1441b	Small	200 each/box - 10 boxes/case
J1441c	Medium	200 each/box - 10 boxes/case
J1441d	Large	200 each/box - 10 boxes/case
J1441e	X-Large	180 each/box - 10 boxes/case

*ASTM D6319 is the Standard Specification for Nitrile Examination Gloves for Medical Application

Disposable Shoe Cover

- J0730** Non-conductive and non-skid. Universal size. Bulk packaged in dispensing box. 100/box

O.R. Nurse/Bouffant-Style Headwear

- J0734** Blue, 21". 100/box. 5 box/case.

O.R. Nurse/Super Bouffant-Style Headwear

- J0734L** Blue, 24". 100/box. 5 box/case.

Isolation/Barrier Gown

- J0736** Fluid resistant. Yellow with full back. Knit fabric wrist cuffs. Universal size, full length with ties. Disposable. 50/case.
